

# Can having a union mean JOB SECURITY? Just ask Local 34 member Donna Whitcher

Donna Whitcher, Clinical Receptionist, OBGYN, Yale Health Plan

“For me being a union member is about job security. It’s good to know that the administration can’t come in one day and say ‘sorry, we don’t need you’. Under our union contract, if you’re ever laid off you get full pay and benefits for 15 months while the administration helps you find another job at Yale and train you for it, if necessary.”
